

Factory Suggested Installation Charges

Condiment Dispensing Systems and Condiment Dispensing Carts

Effective: January 1, 2010

The following net charges are for normal Non-union installations that do not require line run distances in excess of 10 feet. Normal installations do not include penetration of cement, cinder block, marble, granite or similar type countertops, line runs through suspended ceilings or other difficult circumstances determined to be out of the ordinary. Electrical outlets, connections and special fixtures, plumbing, and other construction type work to be done or supplied by others. Installation charges are based on performing installations during service agency's normal operating business hours. After hours or weekends may be subject to additional overtime charges, over and beyond charges shown. **Installation Charges include a 90-day labor warranty.**
